SELENA

The SELENA women's harness is ideal for sport climbing. With its ENDOFRAME Technology construction, it provides excellent weight distribution around the waist and legs to ensure greater comfort. The fitted elastic leg loops offer complete freedom of movement. The DoubleBack Light buckle on the waistbelt ensures quick and easy adjustment. The tie-in points are made of a polyester/Dyneema mix, for improved resistance to rope friction.

The aluminum DoubleBack Light buckle allows easy and quick waistbelt adjustment.

The specific construction of the ENDOFRAME Technology waistbelt allows excellent weight distribution.

Short Description Women's climbing harness with elastic leg loops

Selling Points

- ENDOFRAME Technology construction guarantees excellent weight distribution for optimal comfort:
 - waistbelt and leg loops with doubled straps
 - waistbelt wider on the sides
- No compression points or chafing zones on the waistbelt because there are no crossing seams
- DoubleBack Light buckle allows quick and easy adjustment of the waistbelt
- Tie-in points:
 - polyester/Dyneema mix for improved resistance to rope friction
 - red wear indicator on lower bridge to easily identify when the harness should be retired
- Fitted elastic leg loops give complete freedom of movement
- Four equipment loops: two rigid ones in front for quick and easy access to equipment and two flexible ones in the rear to avoid creating pressure points with a backpack
- Two slots for CARITool tool holder
- Rear loop for haul rope
- Detachable leg loop elastics

Specification

- Material(s): nylon, polyester, EVA, polyurethane, aluminum, Dyneema
 - Certification(s): CE EN 12277 type C, UIAA
-
