

14548 - Risberg (S) Deep Forests

Data Sheet Created: 15-10-2026

Risberg (S) is a knife made from Swedish stainless steel. Developed for hiking, fishing, camping, and lighter tasks in nature – a compact and versatile knife that combines low weight, high precision, and reliable performance in the field.

The 91 mm long blade is 2 mm thick and made from Swedish stainless steel (12C27) with a hardness of 56.5 HRC. The edge is ground to a 23° angle for a perfect balance of sharpness and durability and extends all the way into the handle, allowing better control and stability when working close to the blade. The classic Scandi grind makes the knife easy to sharpen and provides fine control for carving and precision work.

This knife is made in Mora, Sweden.

- Outdoor knife
- PP plastic handle
