

**Bridgedale**<sup>®</sup>  
LITTLE THINGS MATTER

SPRING/SUMMER 2026

### MOISTURE MANAGEMENT SYSTEM

Allows the transfer of moisture away from the surface of the skin to keep feet warm, dry and comfortable.

### PERFORMANCE FIT

Every course has LYCRA® fibre running through it giving a close supportive fit from foot to calf.

### COMFORT FIT

Close supportive fit on your foot with a looser comfort fit around your calf. Allows sock cuff to be worn up or down.

### THERMO FIT

Thermo setting every Bridgedale sock ensures a perfect fit. Wash after wash the sock returns to its designed size ensuring a perfect fit every time.

### WOMENS FIT

Bridgedale were the first to offer a true WOMENS FIT sock. Women's styles are slimmer fitting, have bespoke sizing, adapted toe box and heel cup areas.

### FLAT TOE SEAM

An almost invisible toe seam closes the toe box creating a comfortable, flat seam that doesn't create excess bulk or cause irritation.

### OVERFOOT VENTILATION

Bridgedale's open mesh structure reduces insulation and promotes easy moisture transportation.

### FORWARD FLEX

Prevents the sock from 'bunching' under the shoe tongue which helps to ensure comfort.

### SHOCK ZONES

Advanced zonal padding system that provides extra support and comfort to areas of the foot and leg.

### ELASTICATED ARCH

Keeps the sock locked in position. During wear this reduces the possibility of bunching and rucking which could cause irritation or blisters.

### Y HEEL

Creates a 3D shaped heel cup that prevents excess bulk and slippage which helps to ensure comfort.

### ANTI-SHOCK CUSHIONING

A loop within a loop that offers an additional level of impact protection resulting in all day long comfort.

### SPORT FIT

Supportive compression from the cuff through the arch improves Proprioception (joint position awareness) around the ankle and mid foot aiding stability and improving balance.

### NATURAL TOE SPREAD

Wide and un-restrictive, natural toe box allows toes to splay naturally.

### ZERO DEBRIS CUFF

Extended, close fitting cuff to prevent debris entering the sock.

### TOE GUARD

Reinforced toe box to avoid splits holes & blow outs when descending.

### COMBED COTTON

The cotton fibres are combed to create a soft more luxurious feel against the skin.

### WATERPROOF & BREATHABLE

Allows perspiration to pass to the outer layer of the sock while preventing outside water from getting inside. 15,000 MP / 10,000 WP.

### WINDPROOF

Prevents wind chill, the lowering of body temperature due to the passing flow of cool air across the skin, exacerbated when skin is wet.

### 4 WAY STRETCH

A stretch PU membrane together with a matrix lamination process bonds three layers together ensuring they have excellent stretch.

### DURABLE OUTER

An extremely durable and long lasting outer sock protects the Waterproof Membrane against abrasion from the boot.

### UNDERFOOT TOE SEAM

Toe seam under the toes to eliminate the potential cold spot and increase warmth.

### ANATOMICAL VIBRATION DAMPENING FOOTBED

Additional underfoot padding, strategically placed to eliminate vibration.

### HEEL BAND

"Tight" heel band to ensure close fit to eliminate friction.

### ACHILLES PROTECTION

Padding to provide protection and additional warmth for your Achilles.

### ANKLE PROTECTION

Additional protection around the sides and back of your ankle.

### ASYMMETRIC FOOT SPECIFIC SOCKS

Socks specifically designed for the right and left foot to provide protection from the friction areas with cycling shoes.

Fusion Technology is the unique blend of yarn and knitting technology that sets Bridgedale apart from other sock brands. It is the combination of the highest quality natural yarns, wrapped with high performance microfibres knit and finished on the latest machinery to create socks that ensure all day comfort. These unique combinations place yarns where they are needed to ensure that whichever Bridgedale sock you choose, they will perform to the highest level.

## MERINO PERFORMANCE

FusionTech Merino Performance brings together Merino Wool, known for its anti-bacterial properties, New Wool with its soft, resilient fibres and technical synthetic yarns in a knit to provide a close supportive fit, moisture wicking and outstanding durability for all day comfort. Ideal for long distance walking.

## MERINO COMFORT

FusionTech Merino Comfort blends Merino Wool with its unrivalled fineness and anti-bacterial properties with technical synthetic fibres in a knit that has a faster drying time and longer lasting durability than that of Merino Wool alone.

## MERINO SPORT

FusionTech Merino Sport brings together Merino Wool and Lycra Sport to provide a supportive compression fit from calf through to the foot arch. This improves the joint position awareness around the ankle and mid foot aiding stability and balance.

## MERINO COOL

FusionTech Merino Cool keeps feet dry and comfortable when you are working at your hardest.

## COOLMAX® - PERFORMANCE

FusionTech Coolmax® - Performance brings together Coolmax® known for its moisture wicking properties with technical synthetic fibres in a knit to provide a thin, close supportive fit, balanced insulation and outstanding durability. Ideal for warmer climates in lighter footwear.

## MERINO LINER

Fusion Tech Merino Performance brings together Merino wool and technical synthetic fibres to provide a close fitting warm sock for use under your Bridgedale's or as an everyday sock.

## COOLMAX® - COTTON COMFORT

FusionTech Coolmax® - Cotton Comfort maximises the natural benefits of cotton yarns with the wicking properties and softness of Coolmax®. The softness and superb wicking performance help keep feet dry and comfortable in warmer climates.

## COOLMAX® - LINER

Coolmax® liners have a large contact area with the skin and utilise the moisture wicking properties of Coolmax® to move moisture swiftly out to the larger surface area of main sock where it can be evaporated quicker.

## COOLMAX® - SPORT

FusionTech Coolmax® - Sport brings together Coolmax® and Lycra Sport to provide a supportive compression fit from calf through to the foot arch. The structure of the sock helps improve the joint position awareness around the ankle and mid foot aiding stability and balance.

## THERMAL LINER

FusionTech Thermal Liners are primarily knit with EnduroFil™ our own formulation of polypropylene fibre, with the lowest thermal conductivity of any yarn making our thermal liners our warmest by weight of sock in our range.

**LYCRA®** is used in every sock in the Bridgedale range. It is an elastic fibre, which ensures Bridgedale socks give long-lasting fit.

**COOLMAX® EcoMade** is an incredibly soft yarn with a 4 channel cross-section that Bridgedale use to draw moisture away from the body to keep the wearer cool and dry on hot days. The yarn is made from 100% post-consumer recycled materials.

**LYCRA® SPORT** branding is the accreditation given to sports socks with a premium level of elastification in the sock body. The LYCRA® fibre also gives Bridgedale socks long lasting fit and comfort, keeping their shape wash after wash.

LYCRA® & COOLMAX® are trademarks of The LYCRA Company

# HIKE *reBOOT*

## Our market research found

- *People's choice of footwear is changing*
- *Boots are still the number one choice of footwear for our customers*
- *However, the number of people who choose to walk in shoes is increasing rapidly*
- *There isn't a short sock on the market, which focuses more on cushioning than the conditions and/or has the features of a Bridgedale sock*

A new range of socks based on our three best-selling HIKE weights

- ***Midweight***
- ***Lightweight***
- ***Ultralight***

which all have the same features and performance as their parent style

**HIKE  
MIDWEIGHT**  
All year round sock for outdoor enthusiasts. Designed to ensure dry, warm and comfortable feet.

**MOISTURE MANAGEMENT SYSTEM**

Bridgedale's unique Moisture Management System utilises technical innovations to transfer moisture away from the skin to keep your feet feeling warm, dry and comfortable.

**FIBRES:**

- 26% New Wool
- 18% Merino Wool
- 38% Nylon / Polyamide
- 17% Endurofil™ / Polypropylene
- 1% LYCRA® / Elastane

**PEFC** Packaging from sustainably managed forests and controlled sources.

It is often said when we have visitors come to our factory that we are not simply a sock knitter, we are a family of sock engineers. For over 100 years we have knit socks in Newtownards and over that time we think we have become pretty good at it. We push our knitting machines to their limits to see what they will do to enhance comfort or increase sock durability and the machine manufacturers have said on several occasions that these machines are not supposed to do what we get them to do.

**Bridgedale**  
LITTLE THINGS MATTER

We don't just design Bridgedales... we make them. Bridgedale Outdoor Ltd is located at the tip of the Strangford Lough, Newtownards, near Belfast in Northern Ireland under the shadow of the Scrabo Tower which was built as a monument to Lord Londonderry. The factory here has been knitting socks in Newtownards since WW1, when the first army socks were made. The strong heritage in hosiery is a feature of the Bridgedale brand and several of our team have been working in the factory for over 40 years, so you could say we know our socks!

LITTLE THINGS MATTER

Bridgedale prides itself on producing the most comfortable, highest quality, hardwearing socks you will ever wear. We lead the innovation of sock technology to ensure that we make the most comfortable socks for you. We are continually investing in the latest knitting and finishing machinery which enables us to develop new designs and constantly improve the performance of our socks. Every single Bridgedale is passed through a series of inspection processes and at the packing stage is hand inspected to reach our very high quality standards.

Quality is at the heart of everything we do.

+  
**QUALITY**

# SKI

Whether it's your first time on the slopes or you are an experienced pro, you will find a sock in the SKI range to suit. Specifically designed for disciplines including Cross Country, Downhill, Backcountry and boarding, each Bridgedale Ski sock offers comfort, performance and insulation.

From Heavyweight to Ultra Lightweight, the Fusion Technology provides balanced insulation and moisture management, giving you the best fitting, most comfortable and durable SKI socks, allowing you to enjoy your winter sports whatever the weather.

# TRAIL RUN

**FUSION  
TECH**

Where Less becomes more. Less weight, more distance. Less bulk, more comfort. Less shock, more performance. Socks in the Trail Run range deliver fantastic comfort for those hiking, biking or running on the world's great trails.

Fusion technology maximises the benefits of natural and technical fibres knit in such a way as to create a highly ventilated and perfectly cushioned sock providing advanced fit and comfort.

**T2 ANTI-SHOCK  
CUSHIONING**

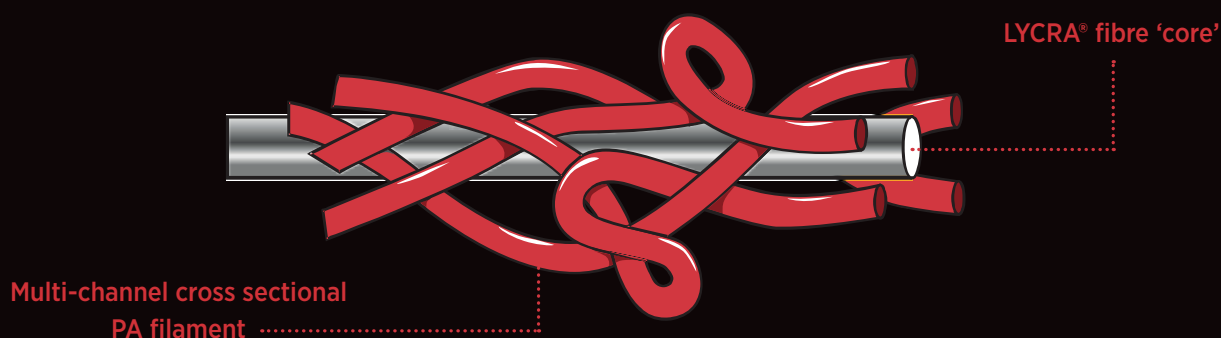

# LYCRA® DRY TECHNOLOGY

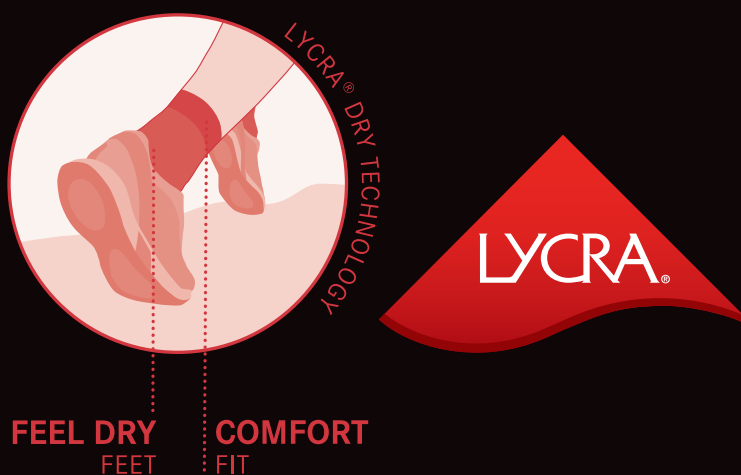

Developed with Bridgedale

- LYCRA® fibre, since its invention over sixty years ago, has set the standard for premium stretch fibre. While our fibre is lightweight and nearly invisible, it makes all the difference in socks. The unique properties of LYCRA® fibre provide long-lasting fit and shape retention helping you perform to your best ability; LYCRA® fibre inspires confidence.
- Now, newly launched **LYCRA® DRY TECHNOLOGY** provides the long-lasting fit and comfort you expect with LYCRA® fibre with the additional benefits of **dryness**.
- This new yarn combination of LYCRA® fibre and a multi-channel polyamide covering, has been knit into the new **Bridgedale Trail Run range** on the inside where it is closest to the skin. This yarn provides close-fitting comfort and also draws moisture away from the foot helping to keep the leg and foot dry.

## LYCRA® DRY TECHNOLOGY:

- *Provides long-lasting fit and comfort with dryness – helping feet to feel comfortable whatever your activity*
- *Permanent benefit, does not wash off*
- *Non Hazardous material used, limiting possible skin irritation*
- *Allows socks to have a 'quick dry performance benefit'*

# TRAIL RUN MIDWEIGHT

# MTB/ GRAVEL

**FUSION  
TECH**

Bridgedale's new MTB socks, the world's first technical sock range designed with a rider's feet in mind.

Featuring the finest yarns, a new type of knit, which dampens pedal vibration, zonal protection, that softens impacts, asymmetric padding, and an underfoot-toe seam all combine to maximize rider comfort and performance.

Available in three weights, and a choice of materials, there is a sock in this range for every rider regardless of their discipline, the conditions or terrain.

LITTLE THINGS MATTER

We work with a diverse group of testers, from around the world for a wide range of activities. Alongside our Testers we are very keen to hear your feedback so that we can continue to make changes and meaningful improvements.

We look to understand the latest trends in footwear technology and produce innovative products that work with the latest footwear systems to provide all day, enduring comfort. We look to appeal to as many outdoor enthusiasts across the world who are passionate about their activities and want to wear the most comfortable socks on their feet.

+  
**CONTINUAL  
INNOVATION**

# LINERS

Minimal cushioning and ideal for wearing next to the skin to form a secondary layer of protection.

Designed to be worn for comfort, additional warmth and practicality, liner socks will help to keep you comfortable for as long as possible whatever the terrain is like. Perfect for protecting your feet during treks and hikes or even to wear everyday on their own.

## POS ORDERS

POS orders should be placed with Bridgedale during December for despatch the following year i.e. place your order in December 2023 for shipments during 2024. We will order from our manufacturers once a year and will only order enough stock to cover the orders we have received.

Our aim is not to hold excess stock in our warehouse.

At Bridgedale we believe it's the little things that make the biggest difference to our lives.

It's the little things that put a smile on our faces and a spring in our step.

It's the little things that come together to make big things happen. For over a century our socks have been one of the little things that transform your journey every day.

Our passion, experience, and care for every tiny detail, from our FIT, our FUSION TECHNOLOGY and our GUARANTEE, have helped us create the world's most comfortable and enduring socks.

Little by little. Step by step. We're changing the world beneath your feet.

**Bridgedale, Little things matter**
