

Floating Serrated Knife

We developed the Floating Serrated Knife for the offshore industry where a floating knife is of high importance. Of course it's features also make this knife a perfect tool for kayakers, people sailing and others spending time on the water.

Properties:

The Morakniv Floating Serrated Knife is a fixed blade knife that, thanks to the designed handle of cork actually floats. The thin serrated blade of stainless steel is specially designed to handle the cutting of rope, fibers, and nylon. The Floating Serrated Knife has a core and a sheath made of orange Highly Visible polymer making it easy to locate. The Floating Serrated Knife is a very lightweight knife, easy to take with you by connecting it to your belt, backpack or lifesaving vest with the clip on the sheath. It's also possible to attach it to a button, for example on your working clothes. An orange Highly Visible sheath with a smart button lets you connect and link several knives from our Craft segment, giving you the opportunity to carry your preferred combination of models. The thin blade of stainless steel has a rounded tip, keeping you and your boat safe from injuries.

Product information:

Blade length:	96mm
Blade thickness:	1,4mm
Product length:	235mm
Product width:	49mm
Product height:	45mm

Blade material:	Stainless Steel
Handle material:	Cork
Handle color:	Natural
Sheath material:	Polymer Edge Protect

HS Code:	82119200
----------	----------

Lead time:	10 days
------------	---------

Packaging information:

Item no:	13131
Net weight:	87,5g
Gross weight:	91g
Volume per knife:	0,095733333333333m ³

Package multiple:	15
-------------------	----

EAN on Box:	7391846022046
EAN on Item:	7391846020899
