

COMBAT

ballistic spectacles - kit

Newest generation of hybrid ballistic glasses, STANAG 4296, EN170 and EN172 certified, **PLATINUM** coated COMBAT protective glasses provide unique adaptability thanks to their easy-to-change mono-lens in **clear, smoke and CSP versions**, and their dual temple/strap system (with or without foam).

PLATINUM (P)
 The new exclusive PLATINUM coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and durably delays the appearance of fogging.

bFLEX
 The revolutionary B-Flex technology provides unique flexibility. Light, soft and fully pliable, the B-Flex bridge is fully adjustable and perfectly fits all faces thanks to its shape-memory material.

ELASTIC FIXTURE WITH BLACK OR TAN COLOUR SCRATCH (COMBFXS AND COMBFXN).

COMBAT KIT, BLACK VERSION ■

AVAILABLE IN TAN ■

The COMBAT kit is supplied with a clear ballistic lens, 2 spare lenses (CSP and smoke), a strap and a soft carry case (tan or black according to the version).
